15th November 2017

Dear Sir or Madam

I write to advise you that following the completion of the purchase of Klenzan in January this year, we are now rebranding the company and welcoming it fully into the Christeyns family. As a result, from November 24th 2017 we will officially be known as Christeyns Food Hygiene Ltd.

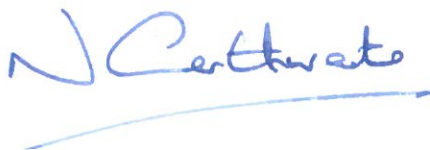

However, other than our name you will see no other changes and it will be business as usual. Our commitment to customer service, consistency and the family values on which we were founded will remain a priority, as will our policies on quality, the environment and innovation.

Christeyns Food Hygiene will benefit from the shared knowledge of our international team and an improved access to new technology and equipment. Through increased investment and resources from Christeyns UK, the Warrington operation will further strengthen our position as the centre of excellence for food hygiene across the Christeyns Food Hygiene group and we look forward to helping you develop your business, while continuing to provide you with safe, reliable and future-proof hygiene solutions.

We will, over the course of 2018, be updating and replacing existing signage and documentation across our customer base and have already begun this re-branding process for Cleaning Instruction Cards on WiSH and our training packages, your support as we carry out this process will be very much appreciated.

Should you have any queries about the name change please do get in touch but in the meantime I am sure you will join me in wishing the Christeyns Food Hygiene team every success as we look to the future with renewed ambition and confidence.

Best wishes

Nick Garthwaite
Managing Director Christeyns UK
