Essity price increase as of July 1st 2019

8th March 2019

Dear Kevin Collins

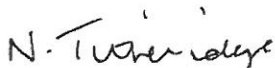

As you are aware, over the past three years the hygiene and tissue market has seen unprecedented increases in raw materials and production costs. We have been doing our utmost to mitigate the impact on our customers through product mix improvements and the implementation of a group wide cost savings programme.

These measures have offset some of the negative impact, however the level of increases has made a market price adjustment unavoidable.

With effect from 1st July 2019, Essity will increase prices by 6% across the Professional Hygiene range and also the consumer brands Plenty and Cushelle. We will continue to apply current prices to all orders received by Friday 28th June 2019, due for delivery no later than Friday 12th July 2019.

We would like to thank you for your understanding and look forward to our continued business co-operation in the future.

Yours sincerely
