2019 Barcorand Limited Price Increase

Over the past number of years Barcorand has seen many increases in the cost of products we supply as well as increased cost in nearly every other aspect of our business.

The cost of chemicals (see attached letter from Evans Vanodine), plastics as well as cotton have increased dramatically (see SYR letter attached) even before we see any impact from Brexit.

It has been many years since I looked for any increase from customers but unfortunately it is no longer feasible for Barcorand to absorb these all to frequent increases.

Due to the above, a general price increase of 3% will be applied across the board from 1st March 2019. These increases are not due to Brexit in any way and unfortunately, I do not have any idea as to what kind of tariffs etc we may see in the near future due to a hard Brexit.

I wish to thank you for your custom and I am available any time to go through any concerns regarding the above increases.

Regards

Brian Corr

Sales Director
