Description:

SOFTENER WITH NEUTRALIZER FOR TEXTILE WASHING.
Anti-static softener with alkalinity neutralizer.

Key Properties:

Low dose concentrated product, pleasantly scented that prevents the growth of mold on clothes, makes easy ironing and calendaring, reducing drying time of textiles and removes the static charge of clothes after the washing process. Neutralizes rests of chlorine and alkalinity after washing and bleaching processes, prolonging the useful life of tissues. Provides a bactericidal effect to the treated textiles. Totally soluble in water.

Use Instructions:

In the last rinse, add 3 to 5 g. of product per each kg. of dry cloth, depending on the water ph level. Increase dosage if to many chlorine or alkaline detergents quantities have been used.

Technical Data:

* PROPERTIES:
Neutralizing, anti-static textile softener. Antifungicide and bactericide.
* SPECIFICATIONS:
Appearance: Liquid
Colour: blue
Odour: Floral
PH (20º) : 2 +/- 0.5
Density: Aprox. 1 gr/cc.
* COMPOSITION: Cationic surfactants, mineral acid, silicon and bactericidal copolymer.

Preservation and Storage:

Keep in its original package tightly closed, protecting it from cold and intense heat. Avoid freezing. Do not expose to direct sunlight.

Security and Handling:

Safety data sheet available on request. FOR PROFESSIONAL USE.

Warnings:

In case of accidental ingestion, please contact the National Toxicology Service.

Our TECHNICAL DEPARTMENT will attend any doubts or questions you have about products or applications without obligation.
